February, 2013

## PRESS RELEASE

In 2012 Brood 9 became full partners with Tri-Delta Performance Concepts and have since been expanding our classes, our fight/competition team, our vendor relationships and most of all our drive to give all of our students the best possible training.

Now with this partnership we are taking it to the next level as of March 1st we will be moving our studio into a new location. We have just finished signing a Lease on our new Studio in Lomita, CA! This will be our very own gym! We have loved our relationship with Abrigo Martial Arts with sharing studio space for the past 3 years but now it is time to move forward.

What this means is a brand new full schedule of classes with new types of classes, full training available for our Fight Team with specialized times, as well as the offer of personal training throughout the day with our certified trainers.

Some of the new classes we will be offering are:

- Jiu-Jitsu (Gi)
- Kettlebell Conditioning
- Boxing for MMA

We will be in our new location as of March 1st but the new schedule (to be posted soon) will start promptly April 1st. We will be having special sign ups for the rest of February so you can get in at a discounted price early at the start of this new location.

Thank you all again for your continued support and helping us drive forward with this major move. We are looking forward to seeing you all on the mat in our new gym!

Thank you,

Anthony Eisenhower  
Head Instructor/Owner  
Brood 9 Martial Arts
